

Growing in the Golden State

Through both Company controlled operations and our network of skilled growers, we have established ourselves in strategic locations throughout the Valley and State to ensure an uninterrupted supply of quality produce. To achieve the quality you have come to expect from us, we plant in different regions throughout the season to ensure our crops have the optimal growing environment to be their best. Warm, cool and any where in between we ensure we are in the right place at the right time.

*Family farming
since 1948*

Need help supporting your local grown programs? With access to not only in-state product but throughout different regions in the US as well, let us help!
